

A bun in the oven

Are you expecting and would like to preserve this time in your life? I offer four different packages for pregnancy photo-shoots. I prefer to take the photos outside all year around. The light is the most beautiful early or late during the day. It is good to bring several outfits to get a greater variation of photos. Which week you prefer to have your photos taken is completely up to you, but I usually recommend between week 26 and 34.

If you wish for your partner and siblings to be part of the shoot that is of course fine.

Within 2 weeks after the photo-shoot you will receive an email with a link to an online gallery and then choose which package that suites you best.
