If you want to include more pictures in the book you can buy up to 10 more spreads for 120 SEK / spread. The book is, no matter the size, printed with a hard cover, with one of your selected images on the cover. If you wish to have a leather cover, there is an additional cost of 400 SEK. At your Wedding meeting, I will bring a book sample so you get to see and feel the quality. The book cannot be exchanged for discounts, but is included in the package. When buying additional books of the same design a discount will be given. Images selected for the book will be given extra care and attention at the stage of image processing.

Optional

Thank you cards

I offer a specially designed Thank Your Card where several of your favorite images can be used. The Thank you cards keep the dimensions 15x15 cm and come with envelopes in the same size. At your Wedding meeting, I will bring with me a sample of the Thank You Card so you can get to see and feel the quality. 20 Thank you cards costs 900 SEK (20 thank you cards is the minimum amount to order) If you wish to order more Thank you cards it will cost 25 SEK / card.

Additional image processing

Should something go wrong with makeup or clothing, which cannot be fixed during the actual wedding day, it is usually possible to edit pictures afterwards to hide such problems. More image processing of this type increases my working hours and therefore I take out an additional cost depending on the scope.

Good to know!

Before the wedding:

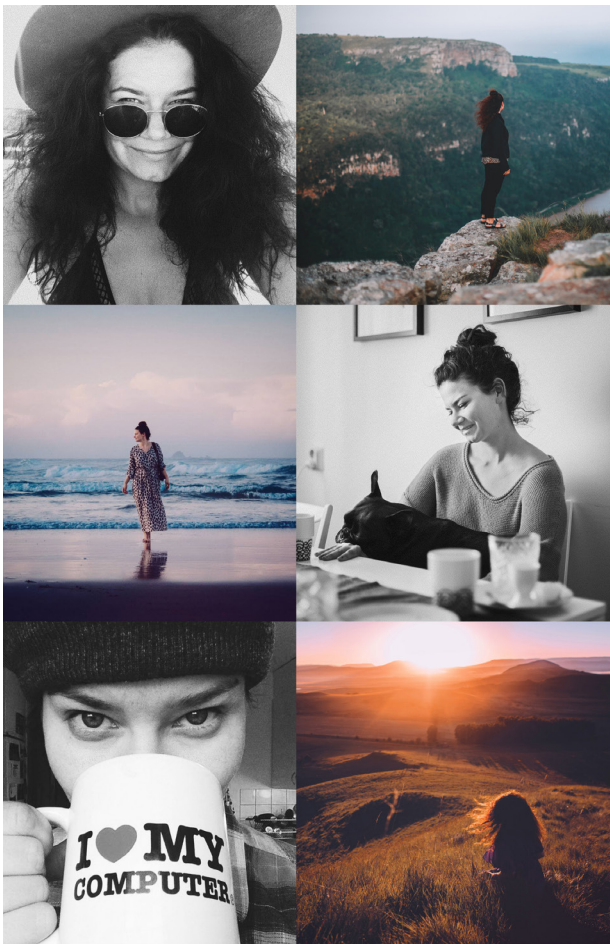

- It's important that you feel that I am the right photographer for you! I will be one of the people you spend the most time with during your big day. Therefore I would love to have a facetime call where we talk about your wedding and feel the chemistry. Send me an email and we will schedule it. I won't have the possibility to meet to do this, we will meet in person the first time after you have made a booking when we have our wedding meeting.
- Once you have decided to hire me as your wedding photographer I will send you a booking agreement document for the security of both parties. A deposit is paid simultaneously as you return the signed Booking-agreement to me. The deposit is deducted from the final invoice. If the booking is cancelled the deposit will not be returned. Starting from the day I post you the Booking-agreement, you have a deadline of 10 days in which to return the document signed, and the deposit paid. If these 10 days have passed before receiving your booking agreement, your booking no longer counts as a provisional booking and other couples have the opportunity to reserve the relevant date.
- If the biggest of misfortunes would occur, such as I would suffer an accident, injury or illness, I will offer a different photographer to you. If you do not prefer the chosen photographer you will be given a full refund on the deposit. I do not guarantee that the new photographer will have the exact same price list and set-up as I do.
- I do not take photographs in the studio since it is not my preferred style of photographing. I take photographs in natural light because I think the images become more alive when taken outdoors. Should it rain on your wedding day we will solve it by finding areas with cover and I always recommend my wedding couples to be prepared with some fine rubber boots and an umbrella.
- Sometime during the 2 to 14 weeks before your wedding, we meet for a so called "Wedding meeting". It is a meeting where we take a cup of coffee together and go through the details of the photo shoot of your wedding day. It is also the meeting when we have a try-out photo shoot where you are able to experience beforehand how it is to stand in front of the camera, and of course I as a photographer will get to know you even better. From this shoot you get 8 high resolution images in both color and black and white.

During:

- The best type of natural light is to be found in the afternoon and evening. So if possible, please plan the wedding day so we can photograph some portraits during this time. The midday sunlight can be unflattering and hard. It is also possible to divide the portrait portion, so that we for example take some photographs before the wedding ceremony and some afterwards, in the nice evening light. Remember that at least 1.5 hours are needed for photographing the portraits.
- When booking the Diamond package, my assistant and I will ask for a meal in the evening, to maintain our best creativity, preferably when you eat. In this case, please take into account that I am a vegetarian (dairy and egg products are fine).

After:

- It takes around 5-7 weeks after your wedding before you get a link to your online gallery where you can view all the best images. From this gallery you will select the 60 pictures you want in your book. These images will get some extra editing. Within 2-3 weeks you will get a book layout. How long time it takes for everything to be delivered depends on how quickly you do your selection.
- The invoice for the wedding will be sent to you through email at the same time you get the link to your online gallery. Once this has been paid you will get full access and are able to download your files.
- High-resolution image files, which are included in all packages, means that you yourself can make unlimited copies of the photographs in different sizes and materials. The rights of the pictures still belong to the photographer but you are free to use them for private purposes.

Hi there!

Behind the name Turturduva which basically means lovebird in Swedish, you find me, Isabell N Wedin. I was born and raised in a small town in Skåne, the southern part of Sweden. I have now for some years been living and working in Malmö. Here I live together with my partner Calle and our wonderful little son Ossian.

After I completed my professional degree in photography in 2008, from Brobygrafiska in Sunne, I started my own business. Photography has taken me to many exciting places, and through it I have met many interesting people. I began photographing weddings in earnest in 2009 and I love it. As an old elite pony showjumper, I like to perform under pressure, and born under the sign of Gemini I like changeability, which this profession brings. My genuine curiosity for people makes portrait photography a profession that really suits me. But what gives me the greatest drive to photograph weddings is the positive energy it gives me. To be able to be present on that special day when two people manifest and celebrate their love is simply magical.

WHY SHOULD YOU HIRE A PROFESSIONAL PHOTOGRAPHER FOR YOUR WEDDING?

To photograph a wedding is not a walk in the park, it takes experience, quick thinking, nerves, and feel. The pictures are what remains long after the last piece of cake was eaten, so if you care about quality, and wish to feel safe on your wedding day, a professional photographer is an undeniable choice.

WHY SHOULD WE CHOOSE YOU AS A PHOTOGRAPHER FOR OUR WEDDING?

I am energetic, personal, passionate, and I love what I do. I care about what I do and it shows in my work. It is of course also important that you like and enjoy my photographic style, which I like to describe as romantic and bohemian with a twinkle in the eye.

WHAT DO YOU DO WHEN YOU'RE NOT PHOTOGRAPHING WEDDING?

Then I photograph something else! Some see it as a job to be a photographer, for me it is more of a lifestyle. To take pictures makes me genuinely happy and I could never see myself do anything else as a profession. And when I don't have a camera in my hands I enjoy spending time at flea markets, drinking red wine with friends, watching too many tv-shows, traveling, doing yoga, reading Jane Austen novels and I probably spend too much time in my bathtub.
